Summary

- Objective: Programmer, Developer, Tester, 3D designer, Art – summer intern job (May 1- Aug 31)
- Passionate in programming, mechanical, and graphical design
- Well Experienced in Java, and Python. Knowledgeable in PySpark, HTML, CSS, C, C++ etc. Willing and able to learn other languages quickly

Experience

- Robotics
  - The captain of the FLL Team (Falconators and Metal Talons) in 2013-2015 and received the award for Research and Most Effective Design
  - Captain of the Silver Stream Robotics Team achieving 2nd in the York Region Competition in 2016
  - Led a group in the "Design, Build, Battle" summer DEEP Program at U of T
- Computers and Technology
  - Knowledge of computer hardware and new technologies
  - Took classes for 4 years for competitive programming with Java, and AI for Python class.
  - 7+ years total of programming experience with Java and python
- General Building and Crafting
  - Always the leader in building projects for school
  - Lead the design and building of a bridge for a structural engineering course
  - Knowledge of 3D creation software including Sketchup and Fusion 360

Hobbies

- Graphic Design
- Tennis
  - Playing for 10 years+, was a school team member, and participated in tournaments
- Volleyball
  - Played for Thundercats for 4 years as power and libero
  - Played for the school volleyball team from grade 7-11 and was the captain in grade 7 and 8.
- Table Tennis
  - Played and took lessons for 6 years
